

DCS-F5614-L1 Firmware Release Notes

Firmware: V1.03.039a0340.02i46061.T078.2

Hardware: C1

Date: September 02nd, 2025

Problems Resolved:

1. Safer Configuration Export

- The **Export feature** now requires you to log in first.
- User cannot download camera settings without proper authorization.

2. Sensitive Data Protection

- Export settings after login, the file will no longer contain sensitive details such as username or password.
- Safe Configuration data will be included

Results:

- Protects the camera from unauthorized access.
- Ensures the cameras credentials remain private and secure.
