

## **DCS-F5714-L1 Firmware Release Notes**

**Firmware: V1.03.039a0340.02i46061.T078.2**

**Hardware: C1**

**Date: September 02<sup>nd</sup>, 2025**

### **Problems Resolved:**

#### **1. Safer Configuration Export**

- The **Export feature** now requires you to log in first.
- User cannot download camera settings without proper authorization.

#### **2. Sensitive Data Protection**

- Export settings after login, the file will no longer contain sensitive details such as username or password.
- Safe Configuration data will be included

### **Results:**

- Protects the camera from unauthorized access.
- Ensures the cameras credentials remain private and secure.
